

Amy is the Executive Director of the Boys & Girls Club (BGC) in Saint John. Previous to working at the BGC, Amy worked in the private sector in Human Resources, and in the non-profit sector in Resource Development and Program Management. Amy has served on numerous national and local committees that focused on poverty reduction, community engagement, and outcomes measurement. She graduated from business in 1995 and is currently pursuing her Non-Profit Management Certificate from Simon Fraser University. She was introduced to Adverse Childhood Experiences 3 years ago and has become an advocate and supporter for policy change related to ACEs.

Amanda Downey is the Program Director at the Boys & Girls Club (BGC) of Saint John. Graduating from UNB in 2005 with a bachelor's degree in Recreation, Amanda started her path in municipal Parks & Recreation. Amanda moved to the non-profit sector to fulfill her passion working with children, families and her community providing them with innovative programs and opportunities. Amanda serves on various committees that focus on wellness, inclusivity and child development. Being introduced to Adverse Childhood Experiences in 2019, Amanda is aligning BGC programs and services that reflect ACEs.

Angela McGraw is a Nurse Practitioner at St. Joseph's Community Health Center and the North End Wellness Centre with Horizon Health Network. In this role, she provides primary health care services to clients at both clinics, improving access to care to residents of priority communities. Angela graduated with a Bachelor of Nursing in 2000 from the University of New Brunswick, going onto complete Master's in Advanced Nursing Practice from Athabasca University in 2010. Having a passion for life-long-learning and a desire to improve health care outcomes for those living in vulnerable communities, she graduated with a Doctor of Nursing Practice from the University of Massachusetts Amherst in 2019. Her doctoral research focused on educating health care providers and clients about adverse childhood experiences (ACEs) and screening for ACEs in the primary care setting. Angela participated in the Canadian Centre on Substance Abuse and Addiction's first national Brain Builder's Lab in Ottawa in March 2019. As part of the larger group of the Atlantic provinces, Angela graduated with her fellow Horizon Health Network colleagues February 26, 2021 as brain architects - with a mission of spreading and embedding the Brain Story Certification's foundational science across all public sectors.
